- Role: Sole author
- Tools: JavaScript, React.js, CSS, HTML, Node, Express, LottieFiles, Free Meal Api

EXPERIENCE

SeaSalt Eatery
Server

2022-2024

Minneapolis,MN

My first year I worked as a dishwasher and a food runner. Within my second year I moved up positions to Food Prep/ Cook preparing all of the food for the day as well as occasionally frying and cooking the food. I spent a lot of hours in the kitchen even coming in early on weekends to help with shipments and got to learn recipes and help make food before we opened. SeaSalt is one of the busiest restaurants in Minneapolis in the summer which gave me experience working with hundreds of customers a day working in a fast paced kitchen. I gained skills in customer service, teamwork and preparing food.

Key Accomplishments:

- Satisfied an average of over three-hundred customers a day.
- Took orders from customers, cooked and prepared food to learn lots of communication on the front and back end.
- Moved to cook after one year.

EDUCATION

Certificate in Full Stack Web Development
University of Minnesota

Minneapolis,Mn

High school Diploma
South HighSchool

Minneapolis,Mn
